ADVICE from DPL: How Court of Appeal Decision Affects You

A recent Court decision now gives a legal imperative to “patient-centric” discussion of treatment options and risks.

Find out what this means to your practice. Read the full article by DPL [here](#).

[Click here for the full article](#)

Note: This information is sent on behalf of N.K. Luck (S) Pte Ltd. For any enquiry, please refer to the contact details as indicated.

Myobrace - Straight Teeth the Natural Way

Learn how breathing and swallowing incorrectly can have an adverse effect on craniofacial growth.

Learn how to identify and treat soft tissue dysfunction in children and adults.

Learn how to improve the delivery of this treatment with a trained staff.

Learn how to identify and treat dysfunctional breathing in children.

Learn how to structure fees to make it profitable part of your practice.

Dr Flutter makes it easy to understand and teaches you how to correct the issues using myofunctional techniques.

Suction Effective Mandibular Complete Denture (SEMCD)

5 November 2017

NUSS Guild House (Kent Ridge)

College of General Dental Practitioners (Singapore) is proud to announce that Dr Jiro Abe and Mr Arnie Jabour will be in Singapore to conduct a one-day lecture on Dr Abe's unique technique in achieving suction on lower complete dentures.

The main concept of the SEMCD is to seal the entire border of the mandibular denture with soft tissues such as the buccal mucosa, sublingual tissues and the tongue. Using these soft tissues, the mandibular denture is being cradled. Consequently, it creates a complete seal of the entire border, thus achieving its suction.

SEMCD is especially helpful to treat patients who have anatomically compromised mandibular ridge due to atrophy, and/or patients who are unable to afford dental implant treatment.

Attendance is limited, so register early to avoid disappointment!

Note: This information is sent on behalf of BioMers Pte Ltd. For any enquiry, please refer to the contact details as indicated.

SimpliClear and Indirect Bonding Tray

BioMers is known in Singapore as a local orthodontic product provider for both, orthodontists and general practitioners.

After the launch of the world's only fully digital preformed and CUSTOMISED CLEAR WIRE SYSTEM: **SimpliClear** at AOSC 2017, the company is now offering **Indirect Bonding Trays** for all types of brackets and wire cases. The indirect bonding trays **are an independent laboratory service offer** that also includes metal cases and composite brackets besides the established ceramic choices.

Don't miss to try the **3D ideal setup viewer** that comes with the proposal for SimpliClear cases but now also optional with individual indirect bonding trays to improve your clinic marketing and impress your patients.
