CFAST Accreditation and Hands-on Workshop

Very limited spaces are now available for this hugely popular course.

Cfast is an easy to use, fast, minimally invasive, cosmetic treatment that straightens the front teeth with simple cosmetic appliances. Lab fees are from as little as SG\$560 so you no longer have to spend thousands on aligners and wait years to get results.

Learn how to give your patients straight teeth in just a few weeks or months with this revolutionary system already hugely popular in USA, UK and Australia and successfully launched in Singapore for over 2 years.

Learn from and be mentored by Dr Biju Krishnan, internationally recognised as a pioneer in cosmetic tooth alignment and whose techniques have been taught to many thousands of dentists all around the world. Ongoing support, one-to-one mentorship and treatment planning is within Singapore.

No prior orthodontic training is required however spaces are restricted to 10 delegates so [book soon](#) to avoid disappointment.
