June / July 2016 Calendar

We are pleased to invite you to series of lectures from Q & M Dental Institute (QDI).

Topic 1: The 4 Ps to Success in Efficient Predictable Crown Preparation

Speaker: Dr Jonathan Ee

Date: 15 June 16 Time: 6.30pm – 8.30pm

Topic 2: Endodontic Challenges(No 3): Re-treatments(Part 1):

Will The Second Time Round Be Better?

Speaker: Dr Benjamin Long

Date: 23 June 2016 Time: 6.30pm – 8.30pm

Topic 3: Basic Oral Surgery Course and Demonstration

Speaker: Dr Loh Hong Sai

Date: 2 July 2016 Time: Time: 9.00pm – 5.00pm

Topic 4: Optimization of Restorations and Orthognathic Surgery in
Conjunction with Orthodontic Treatment: A Multidisciplinary Approach

Speaker: Dr Hwang Jun Hyuk

Date: 14 July 2016 Time: 7.00pm – 9.00pm

Topic 5: Endodontic Challenges(No 4): Re-treatments (Part 2):

Making it Better The Second Time Round

Speaker: Dr Benjamin Long

Date: 19 July 2016 Time: 6.30pm – 8.30pm

Topic 6: Effective Use of Local Anaesthetics in Dentistry

Speaker: Dr Yong Loong Tee

Date: 27 July 2016 Time: 6.30pm – 8.30pm

Venue: Q & M Dental Centre, City Square Mall Auditorium

(180 Kitchener Road #B1-13/14 City Square Mall Singapore 208539)

Complimentary (Online registration is on a first come, first served basis)

RSVP: <http://www.qandm.com.sg/LectureViewDoctors.aspx>, refer to [flyer for more details](#).

For more info, contact Ms Ann annkoh@qnm.sg or 6705 9888 (Ext 750).

ORTHO & YOU

Hello Doctor,

I would like to take this opportunity to invite you to join us for an educational experience that will truly change the way you practice dentistry. [This program](#) is divided into a series of six three day courses presented over twenty four months. The information and skills you obtain will allow you to provide your patients with the latest "Cutting Edge" treatment in Maxillofacial Orthopedics, Orthodontics, & TMD therapy.

The first in the series of seminars will be conducted in K.L. on July 11th, 12th, & 13th. [In this seminar](#) you will learn to diagnose and treat children from three years of age onward who's faces and jaws are not growing correctly.

We will examine the effect of this pathologic growth on the air way, the ears, the TMJ's, and yes also on the teeth. If you have patients in your practice under the age of eighteen, you owe it to them and to yourself to acquire this knowledge.

I look forward to seeing you in K.L. and sharing my knowledge with you!!

Warmest Regards,
Dr. Skip Truitt

Sleep Medicine for the Dentist

The "[Sleep Medicine for the Dentist](#)" Symposium is organized to raise funds for the Edmund Tay Mai Hiong (ETMH) Endowed Fund.

The Fund was established to support a distinguished speakers' programme and a graduate scholarship in dental sleep medicine at the Faculty of Dentistry in honour of Dr Edmund Tay Mai Hiong, our former Professor of Prosthetic Dentistry and first Dean of the Faculty of Dentistry. As the first and longest serving Dean, he contributed towards building the reputation of the Faculty producing graduates of international standing.

The target to be raised is \$625,000. The Faculty is grateful to the Tay Family who donated \$312,500 to kick start the establishment of this Fund. Past students and friends of Dr Edmund Tay are encouraged to donate generously to this Fund.

3D Endodontics: Management of Complex Canals

ABSTRACT

[The lecture](#) will address the problem how to shape, clean and obturate canals in three dimensions. The anatomy of root canals is mainly oval, while current instruments and techniques are designed to work ideally in round canals. Therefore some changes in the operative techniques and/or in the endodontic instruments must be done while preparing oval canals. [The lecture](#) will explain the need for increasing the amount of canal walls touched by the instruments, the need for enhanced cleaning and disinfecting procedures, the importance of maintaining original path and avoid iatrogenic errors, and the correct selection of tapers and tip sizes. Following these principles, a novel approach to root canal instrumentation using TFA instruments and innovative TFA motion will be presented.

The advantages of TFA instruments will be presented, discussing how to incorporate their use in daily practice, and the advantages of warm guttapercha obturation techniques will be described

HANDS-ON COURSE

Canal preparation:

Participants' hands-on of the novel 3-steps root canal preparation technique.

Canal obturation:

Root canal obturation using the Elements Free obturation unit.

An Update on Aesthetic Anterior & Posterior Bonded Restorations: Mastering Direct and Indirect Techniques

Not to be missed! Father of Biomimetic dentistry – **Dr. Pascal Magne**, first time in Singapore from **5th - 6th August 2016**, a 2-Day Lecture at Marina Bay Sands Expo & Convention Centre!

"An Update on Aesthetic Anterior & Posterior Bonded Restorations: Mastering Direct and Indirect Techniques" will be an intense lecture program for all practitioners wishing to learn about the following topics:

Day 1: ANTERIOR DENTITION

- Ultraconservative approaches (bleaching)
- Megabrasion technique
- Fragment re-bonding
- Direct layering of composite resin
- Anterior Bonded porcelain restoration
- Diagnostic, Waxup
- Mockup technique
- Tooth prep vs. no prep.
- Preparation step by step
- Luting procedures
- Bio-corrosion cases

Day 2: POSTERIOR DENTITION

- Introduction to posterior biomimetics
- Direct composite resins
- Caries removal techniques
- "Magne-ification"
- Stress-controlled restorations
- Semi-(in)direct techniques, CAD/CAM
- Ceramic vs. high performance polymers
- Scientific data on accelerated fatigue
- Immediate dentin sealing
- Luting procedures

Register now at http://www.dentaledglobal.com/oscar/catalogue/aesthetic-anterior-and-an-update-on-posterior-bonded-restorations-mastering-direct-and-indirect-techniques-singapore-lecture_1602/ .
