Introduction to Forensic Dentistry in Disaster Victim Identification

**Final call for registrations - please send in your registration forms by 11
Nov 2016!**

The Forensic Medicine Division, Health Sciences Authority (HSA), will be presenting an inaugural half day course on 25 Nov 2016 (Fri, 1.30 pm - 5.30pm) to introduce dentists and oral health therapists who are interested in learning about the role of dentistry in Disaster Victim Identification (DVI).

The course will introduce participants to an overview of forensic human identification during mass fatality incidents (i.e. Disaster Victim Identification), the scope and principles of forensic dental identification, and the role that dentists and oral health therapists can play during Disaster Victim Identification.

Participants will have a greater understanding of the value of the quality of their clinical records in the Disaster Victim Identification (DVI) process. Participants are also expected to become a “sleeper” forensic volunteer to assist Forensic Odontologists during times of mass fatality incidents within Singapore, a skill set that we hope you will never have to use.

It is envisioned that this introductory course will serve as a taster for the forensic volunteers to pursue further training (e.g. a more in-depth course that the HSA is exploring for the future).

[Please see attached course flyer for details and application form.](#) Interested applicants should complete the application form and return a copy to Amirah Mazlan at Amirah_Mazlan@hsa.gov.sg and Shirley Phua at Shirley_Phua@hsa.gov.sg

Administrative details to note:

1. Please note the course is provided at no cost to the participants. 4 CPE points will be provided.

2. The course will be held at the HSA auditorium, ground floor of the HSA building.
3. Please note that lunch will not be provided.
4. There is no on-site parking as the HSA car park is under construction. There are ample parking spaces in nearby buildings, for example at NDC or HPB. Please note that unauthorized vehicles parked within the premises of the HSA mortuary (Blk 9 SGH) will be wheel clamped.
