*For any enquiry, please refer to the contact details as indicated.*

## **CFAST Accreditation and Hands-on Workshop**

Final few places still available for this hugely popular course.

Cfast is an easy to use, fast, minimally invasive and hugely profitable cosmetic treatment that straightens the front teeth with simple cosmetic appliances. Lab fees are from as little as SG\$560. Choose from range of occlusion friendly fixed or removable appliances to suit the clinical situation and the patient's budget.

Learn how to give your patients straight teeth in just a few weeks or months with this revolutionary system already hugely popular in USA, UK and Australia and successfully launched in Singapore for over 2 years. Most case will be completed in a 4-6 month period.

Learn from and be mentored by Dr Biju Krishnan, internationally recognised as a pioneer in cosmetic tooth alignment and whose techniques have been taught

to many thousands of dentists all around the world. Ongoing support, one-to-one mentorship and treatment planning is within Singapore.

No prior orthodontic training is required however spaces are restricted to 10 delegates so book soon to avoid disappointment.

Call Gosia on 8614 2329 or email: [gosia@cfastasia.com](mailto:gosia@cfastasia.com) or reserve your place.
