## **Practical Dental Management of the Elderly Person**

Singapore is facing an aging population. As such, it is inevitable that dentists are increasingly seeing older persons in their dental practice. Is there a difference in treating the older person as compared to a younger person? What are the common pitfalls in treating the older person? Without being overly technical or scientific, this talk hopes to shed some light on management aspects of the elderly person, and possibly debunk some myths along the way.

Come & learn from **Dr Ang Kok Yang!**
