## **The 3 Masters: 4-Day Oral Rehabilitation Symposium with Hands-on and Dental Exhibition**

Ancora Imparo would like to invite you to join us for the 3 Days Lectures in **The 3 Masters** featuring **Dr John Kois, Dr Istvan Urban** and **Dr. Joseph Kan**.

Quickly sign up now to enjoy the early bird price before it expires!

Ancora Imparo is proud to have the **The 3 Masters** walk us through the current trends and advancements in **rehabilitative dentistry** as a whole, covering pertinent aspects from the start of treatment planning till the final placement of the prosthesis with emphasis on occlusion, bone augmentation and interdisciplinary relation requirements for optimal aesthetics around implants.

Its rare to have either one of these exciting key opinion leaders to be presenting in this region. Do join us as we bring to you an event where the pinnacle of rehabilitative dental technology is presented by the pinnacle of dental research and practice.

Please contact us at +6568415170 or email to [enquiry@ancoraimparo.training](mailto:enquiry@ancoraimparo.training) for more details.

## **Fight the Plague of Dirty Data: Maintain Your Database Automatically with Regit**

Regit is a compliant, permission-based data management platform that helps businesses collect and maintain clean customer data automatically, allowing them to better service their customers and comply with personal data protection rules.

Fight the plague of dirty customer data and keep yours up-to-date. Dirty data is expensive, creates a negative customer experience, and expose the business to regulatory penalties. Regit is here to help.

For more information, please contact [cindy@regit.today](mailto:cindy@regit.today)

## **Sunstar GUIDOR Periocline® Periodontal Ointment**

Many people in Singapore, especially the elderly population, suffer from periodontitis and more attention can be given to its treatment.

Ever wanted to treat your patients having periodontitis with antibiotics but is worried about the systemic side effects of oral antibiotics?

Good news! Sunstar GUIDOR's Periocline® Periodontal Ointment is now available in Singapore!

Periocline® is a local antibiotic (minocycline dihydrochloride) that can be injected specifically into the affected periodontal pockets to allow for a more targeted treatment while minimizing the possible adverse systemic side effects from consuming oral antibiotics. Designed in a special applicator, Periocline®

Periodontal Ointment can be easily applied into periodontal pockets with ease.

What's more! The special formulation of Perioclone® allows the gradual and constant release of minocycline into the periodontal pocket over many days. As such, Perioclone® can be applied once every two weeks.

Clinical trials have demonstrated good results in eliminating the disease-causing bacteria and alleviating inflammatory symptoms, thereby improving gingival health.

For more information, visit our website at [www.GUIDOR.com](http://www.GUIDOR.com) or contact our sales representatives (Guo Rong-90122035, Yi Ming-97929652) now!
