## **IDEM Sales Promotion 2018**

Chee Sang Dental Supply Pte Ltd, established since 1953, is a foremost dental supply company in Singapore. We are the main distributor of some 30 renowned brands from Japan, EU and USA, with sole exclusivity for NSK Japan, Komet Brasseller Germany and others.

CSDS distributes a wide range of reputable and innovative dental products, serving the needs of preventive, endodontic, restoratives, prosthodontics and oral maxillofacial dentistry.

Product range covers clinical and laboratory rotary handpieces, instruments, equipment, bur and file systems, materials and sundries.

Our valued patronage includes private dental clinics, dental laboratories, educational and public dental institutions. We are privileged to partner with them in serving the oral health care community and contributing towards dental excellence.

Please visit our IDEM Booth @ **6M-21** Singapore Pavilion and website

[www.cheesang.com](http://www.cheesang.com) for product information.

## **30% OFF IDEM PROMO - GUIDOR Periocline® Periodontal Ointment**

Many people in Singapore, especially the elderly population, suffer from periodontitis and more attention can be given to its treatment.

Ever wanted to treat your patients having periodontitis with antibiotics but is worried about the systemic side effects of oral antibiotics?

Good news! Sunstar GUIDOR's Periocline® Periodontal Ointment is now available in Singapore!

Periocline® is a local antibiotic (minocycline dihydrochloride) that can be injected specifically into the affected periodontal pockets to allow for a more targeted treatment while minimizing the possible adverse systemic side effects from consuming oral antibiotics. Designed in a special applicator, Periocline® Periodontal Ointment can be easily applied into periodontal pockets with ease.

What's more! The special formulation of Perioclone® allows the gradual and constant release of minocycline into the periodontal pocket over many days. As such, Perioclone® can be applied once every two weeks.

Clinical trials have demonstrated good results in eliminating the disease-causing bacteria and alleviating inflammatory symptoms, thereby improving gingival health.

For more information, visit our website at [www.GUIDOR.com](http://www.GUIDOR.com) or contact our sales representatives (Guo Rong-90122035, Yi Ming-97929652) now!

# 6th Oral Implantology and Soft Tissue Aesthetics Symposium

CGDP is proud to present the 6th Oral Implantology and Soft Tissue Aesthetics Symposium – Implant Decision in the Aesthetic Zone, Decision Tree for Long-term Success, A Mastercourse, on the 17th and 18th November 2018. This year, we have invited our keynote speaker Prof Nikos Mattheos from the University of Hong Kong. He is a much sought after speaker and is known to many, who have taken his 1 week ITI Course in Hong Kong, as a great educator. The 2 days course featuring a one and a half day lecture and a half day hands-on workshop will be a great learning opportunity for all who will like to learn more about placing and restoring implants in the aesthetic zone.
