Dental Records for Forensic Identification

Dear SDA members,

The Forensic Medicine Division, Health Sciences Authority (HSA), would like to ask for your kind assistance to check if your clinic(s) has any dental records for a Mr Musa Bin Abdul Malek, S7347296B.

The dental records may be able to help us for forensic identification purposes.

If you have any dental records (e.g. dental charting, treatment notes, x-rays, photos or study models), pls kindly contact the undersigned at g.chong@mail.com.

Thank you for your time and kind assistance!

Kind regards,

Dr Gabriel Chong
Visiting Consultant Forensic Odontologist,
HSA

Beautiful Crowns in One Hour/Visit

Looking at expanding your clinic workflow and single day dentistry?

No more second appointment!

No more impression!

No more losing of patient!

Fona "My Crown" is the solution to 1 HOUR single visit dentistry!

Latest launch into our dental CAD CAM world, FONA "My Crown" in-house lab it is possible to perform indications: Crown, inlay, onlays, veneers and short unit bridges within a single appointment or 1 HOUR and without the need for impressions. This means that more patients than ever before can reap the benefits of "single-visit" dentistry. In addition, the capacities of the practice and the laboratory are used more effectively, thus ensuring a rapid return on investment.

Fona “My Crown” milling machine is the cost-effective solution for in-house labs which want to cater for a complete spectrum of indications – from veneers to zirconium oxide posterior bridges. It is designed to machine all types of material, in particular aluminium oxide and zirconium oxide with the smallest foot print requires no need for a compressor and has fastest milling time.

The gateway for a break through to CAD CAM call us:

Roy Ho: 90185978

Brendon Ang: 90185833

Johnson Chong: 91085980

Michael Chiok: 90185825
