Ethics Nite 2018 : Protecting Your Professional Reputation – Minimizing the Risk of Professional Challenge

In an increasingly demanding professional environment, how can we help to reduce the risk of complaints, claims and Dental Council investigation, and help build our own reputation and that of the practice?

In describing real dento-legal case examples, delegates will be able to identify common themes arising and learn behaviours and actions which will help build and protect a professional reputation, particularly how to minimise the escalation of a case when things do not go to plan despite best intentions. We are all human, and mistakes will happen – how can we influence how the patient will react?

Dr Foster will use Dental Protections vast cases experience to bring this presentation to life and to help colleagues help themselves.

Speaker : Dr James Foster, Senior Dento-Legal Advisor

Date : Tuesday, 21st August 2018

Time : 5.30pm – 6.30pm: Registration & Refreshment

6.30pm – 9.00pm: Lecture followed by Q&A

Venue : Auditorium @ The Academia

CPE : 3 CPE points (Non-Core)

Registration : Pre-registration is required as seats are limited.

New Advances in Direct and Indirect Restorative Dentistry

KaVo Kerr is pleased to introduce Dr Marc Geissberger for a one day program on **New Advances in Direct and Indirect Restorative Dentistry...**

Overcoming Common Pain Points, Pitfalls and Problems with Private Practice. He will share various clinical tips and techniques to create perfect Class II restorations, mastering flawless crown and bridge impressions, enhancing esthetics in anterior direct bonding cases and proper adhesion and curing protocols. Additionally, this course will cover latest development in all

porcelains, cements, impression materials and CAD/CAM technology.

Join us for an insightful and comprehensive session.

Date: 8th September 2018

Time: 09 00 – 17 00

Venue: TBC

Fees: SGD 100 net

PERIODONTAL PLASTIC SURGERY: PREDICTABLE ROOT COVERAGE TECHNIQUE IN DAILY ROUTINE PRACTICE

Exposed roots often present an esthetic problem to discerning patients. There are many plastic regenerative periodontal surgery techniques to manage such

problem, but successful treatment needs specialized skills and knowledge.

Ancora Imparo is proud to bring you Dr. Fabrice Chérel, who is an expert in such field and is the best teacher to learn from. His two-day lectures and hands-on workshop using pig-jaw will cover a variety of situations including the selection of grafts, suturing techniques, root preparation, recipient site preparation, harvesting technique and etc.

Join us with Dr. Chérel on 13th and 14th October 2018 in Kuala Lumpur to uncover the secrets and tips to the success of periodontal plastic surgery.

Limited seats! To register, Contact: Ally at 017-366 2619.

MANAGEMENT OF WORN DENTITION: From

Diagnosis to Delivery – Helping you make the right restorative decisions

How does one deal with worn dentition? Restoring worn dentition has always been a great challenge for the clinician. One needs to have an understanding of its etiology; how to evaluate a case; which method to achieve a stable occlusion and knows something about esthetics. Simply put, one is expected to know from a to z. On top of that, patients demand longevity in the restorations as the cost of treatment is rather high.

Dr Saj Jivraj and his team have a simple and workable formula to manage such cases. And it is all done in a 2-day workshop.

This workshop is designed to help clinicians enjoy increased predictability and longevity in their dentistry by basing treatment decisions on how the patient created the wear, and reducing the energy in the system through occlusal design. The workshop focuses on diagnosis, etiology, and an understanding of the principles that increase longevity of restorations for wear patients.

Discussions and demonstrations are blended with a hands-on experience on Day 2.

Limited seats! To register, Contact: Ally at 017-366 2619.
